

POLISHING

MANUFACTURER : Logitech

MODEL : 1PM52-1

Samples

- Sample size : up to 75 mm (3 in.)

Characteristics

- Plate rotation speed : 70 rpm maximum
- Frequency and amplitude controlled eccentric sweep
- Polishing plate diameter : 30 cm
- Application: Precision polishing of optical components
- Materials: Silicon, Fused silicate (High purity grade), Barium BoroSilicate (BK7), Quartz and Aluminum
