

# RAMAN SPECTROSCOPY

---

MANUFACTURER : Renishaw

---

MODEL : RM

---

## Analysis

- Identification of organic and inorganic chemicals, structure determination
- Qualitative and semi-quantitative analysis

## Characteristics

- Sampled depth: 2 to 10  $\mu\text{m}$
- Mapping available
- Lateral resolution: 1  $\mu\text{m}$
- Confocal mode, line-focus imaging, depth profiling
- Equipped with a 514 nm laser
